DETAILED ACTION

1. This communication is in response to Applicant's application filed on 14 December 2000.

Status of Claims

2. Claims 1-37 are originally filed and are under prosecution in this application.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-22 are drawn to providing a consumer with credit-related information classified in class 705, subclass 38.
 - II. Claims 23-27 are drawn to targeted marketing programs classified in class 705, subclass 14.
 - III. Claims 28-37 are drawn to monitoring credit reporting classified in class 705, subclass 39.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as providing targeted marketing programs. Invention III has separate utility such as monitoring credit reports. See MPEP § 806.05(d).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 3624
